

Glazing Deluxe

Glazing Deluxe

Glazing Deluxe

Glazing Deluxe offers an independent consultancy service to help Self-builders, Developers & Homeowners better understand the wide range of window and door options currently available in the UK.

With our building experience, industry expertise, product knowledge and strong manufacturer relationships we can not only assist you to find the most suitable products for your project, but we will also help you purchase them directly from the manufacturer saving you up to 30% when compared to your best retail quote.

Once you have chosen the products for your project we can arrange for an independent pre-order survey and if required, we can provide installation through our contract installation partners.

The Glazing Deluxe brochure shows a selection of Windows and Doors that we can help you procure for your project.

We work with a variety of manufacturers so that we can help you source nearly all Window and Door profiles, so if you know what you want we will help you purchase it for far less. We can also help you save money on construction services too.

Furthermore, by separating your product purchases from the installation labour and materials, you will benefit from more savings while still receiving a high-quality installation with the required certification and guarantees.

Casement Windows

Casement windows are attached to the frame by one or more hinges on either the left or right side, they can also be hinged at the top which allows for a versatile number of outwards opening options, both horizontal and vertical.

Casement windows make an ideal replacement solution because they can fit almost any shape or space, thanks to the streamline design and multiple chamber frame they are considered one of the most energy efficient window styles available.

Aluminium Casement

Casement windows can provide complete control over your home's ventilation thanks to their exceptional opening widths and integrated trickle vent option.

Glazing Deluxe

uPVC Casement

Casement windows are the most versatile window style, fitting perfectly into any home regardless of its character and age.

Flush Casement Windows

Modern flush casement windows unite classic timber sightlines with the high performance and low maintenance features of uPVC and aluminium, well-known for the way they create traditional aesthetics without the traditional drawbacks, even the keenest eye won't be able to tell the difference!

Our flush casement windows are made from the highest quality materials and can even replicate the look of authentic timber, as well as excellent energy performance and weather proofing, flush casement windows sleekly fit into the window frame for a smoother finish.

Aluminium Flush

These modern and contemporary frames are slimline for maximum views of the outside. Finished in an anti-fade, anti-rust and anti-corrosion coating, Aluminium flush windows are exceptionally strong and weather resistant.

Glazing Deluxe

uPVC Flush

uPVC flush sash windows offer a classic timber look but have a maintenance-free design that won't rot, crack, warp, or fade throughout its lifespan (unlike real timber).

Exterior Products

Vertical Sliding

Designed to replicate the look of classic sash windows, designs include astragal bars, run-through sash horns and a deep bottom rail option. There are also three options for external cill depth.

Glazing Deluxe

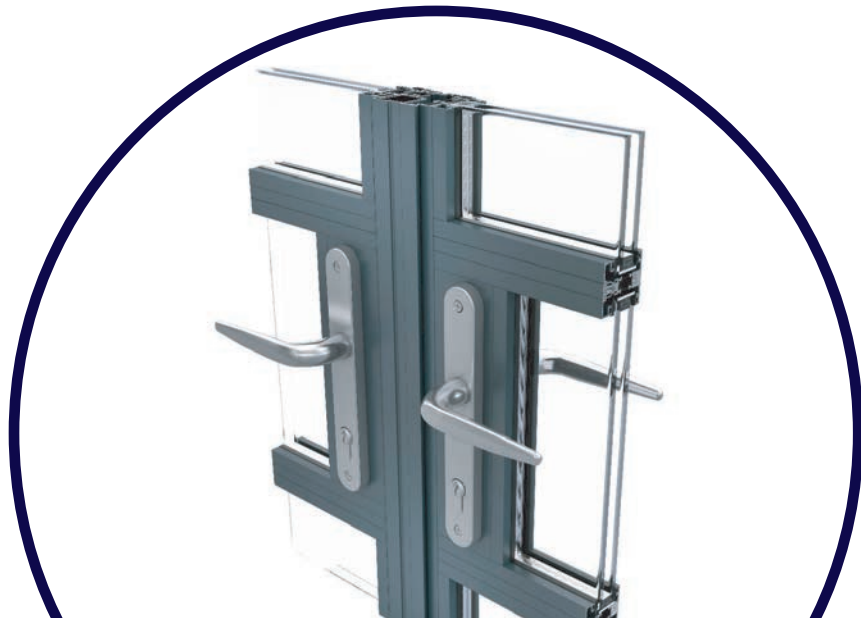

Heritage Style Aluminium

A modern thermal aluminium solution for both heritage and refurbishment projects where the requirement to replace old steel windows is essential.

***Glazing Systems
Exterior Products***

Industrial Style Aluminium

This 70 mm frame hinged system offers great thermal and acoustic performance combined with very simple fabrication, this may be why it has become one of the most demanded styles for aluminium windows.

Glazing Deluxe

Hidden Sash Aluminium

Incorporating an invisible sash and handle that cannot be seen from the exterior of the property, so from the outside, you can't determine whether the window is fixed or opening.

Entrance Doors

A front door is the first thing your visitors will see when they approach your property, therefore it is a very important part of your properties overall look. Choosing the right style, material and finishes is a sure way to add value to your property.

As doors are the main point of entry to your property, choosing a high-quality replacement door will heighten your home's protection from unwanted intruders. Most front and back doors are manufactured using highly robust and durable materials and frames that are rigidly fitted to maximise their strength. Entrance doors can incorporate a number of locking features and the latest smart lock technology.

Aluminium entrance doors are tested to PAS 24 as standard and should your project require it, we can also incorporate laminated glazing. Made to your personal requirements, we can include additional customisation including security options such as night-latches, spy holes and security chains for greater peace of mind.

Aluminium Entrance Doors

Aluminium doors make an impressive addition to any home, both in their ultramodern appearance and outstanding performance. Their smooth feel and sleek design simply can't be replicated by any other door material.

Glazing Deluxe

Deluxe Entrance Doors

Aluminium doors make an impressive addition to any home, both in their ultramodern appearance and outstanding performance. Their smooth feel and sleek design simply can't be replicated by any other door material.

Sliding Doors

A floor-to-ceiling window looking out to your garden is a great way to transform your home and bring a new lease of life to it, and what better way than to combine this into a functional door solution.

Show off your garden in the best way with these bespoke back doors, a set of aluminium sliding patio doors will make every transition from your home into your garden an enjoyable one.

Sliding patio doors are also easy to use, sliding sideways to provide access to the back of your home when you need it. Ideal for those summer days where you want to make the most of the weather and your garden patio. If the required sliding patio doors are larger than standard they can also be motorized for your comfort and ease of use.

Sliding Patio

Sliding patio doors are easy to use, sliding sideways to provide easy access to the back of your home when you need it. Ideal for those summer days where you want to make the most of the weather, eating al fresco or hosting a party.

Glazing Deluxe

Sliding Deluxe

Sliding deluxe doors are available with manual or motorised operation, they can also be made up to 4m wide and 4m high. The operating rollers are built into the frame and the sashes have a stainless steel reinforced rolling area which makes the sliding movement smoother.

Handles & Colours

Your windows and doors won't be complete without accompanying furniture to add the finishing aesthetics. From classical curved handles to modern sleek designs our window furniture collection will cater to your requirements. In addition, a wide range of colours are available to complement your building aesthetics.

Standard Colour Chart

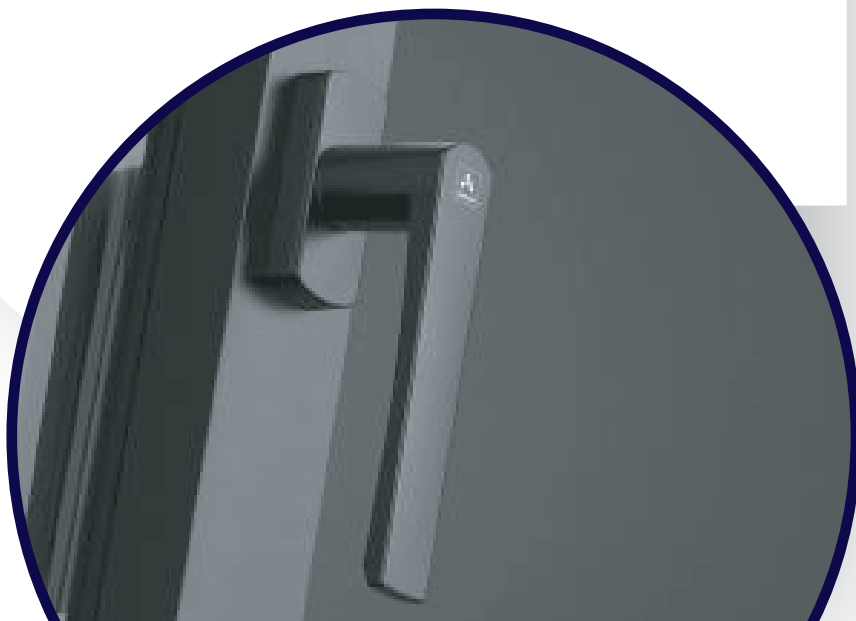

* These colours are orientative and can present a difference by their chromatic variations of screen calibration.

We also offer custom RAL colour match

Glazing Deluxe

Smart Security

We can provide a range of smart door lock options and access control systems from brands like Kubu, Yale and Sesamsec. With app integration and bluetooth access, your building security will be enhanced and a status indicator will let you know if a door is locked or unlocked and who has entered.

Curtain Wall Facades

Aluminium is the perfect solution for use in large area glazed residential and commercial buildings. Facade systems designed and supplied in aluminium are the perfect solution to large areas challenge.

Building in aluminium not only allows lighter, stronger and more efficient projects, but also gives the ability to work with a range of product that meet every challenge.

Curtain walling and facades made from aluminium are durable, corrosion resistant and thermally efficient when compared to alternative frame materials such as steel.

Commercial facades and curtain walling can be specified in a range of finishes and treatments to make them extremely thermally efficient, desirable and virtually maintenance free in almost any environment.

Curtain Walling

Curtain wall systems are a non structural glazed system for the external walls of the building. They are generally associated with large commercial buildings but are also a modern way of creating a large glazed wall effect in residential buildings.

Glazing Deluxe

Facades

A glass facade is an exterior surface for a structure that is mostly made of glass panels or glazing and is supported by a metal or concrete framework.

Exterior Products

Rooflights

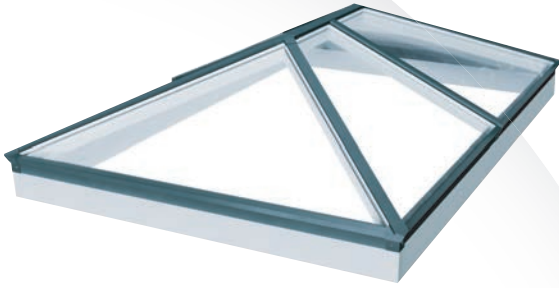

Aluminium rooflights come in many sizes, styles and colours with different glass options too. Aluminium rooflights can now be supplied with a walk on option, making them a perfect addition in new extensions or existing flat roofs.

Glazing Deluxe

Lanterns

Transform your home with unobtrusive views of the sky above. Lantern roofs are made from several panes of glass joined to create a pyramid, box or elongated pyramid shape, glass roof lanterns maximise the natural light in your extension.

Glazing Systems
Exterior Products

Pergolas

A pergola is a structure built from posts and beams creating a shaded walkway, or sheltered area, typically over a patio or deck. They are often used as an extension of a building but their general purpose is to provide a focal point in a garden or outdoor space.

Glazing Deluxe

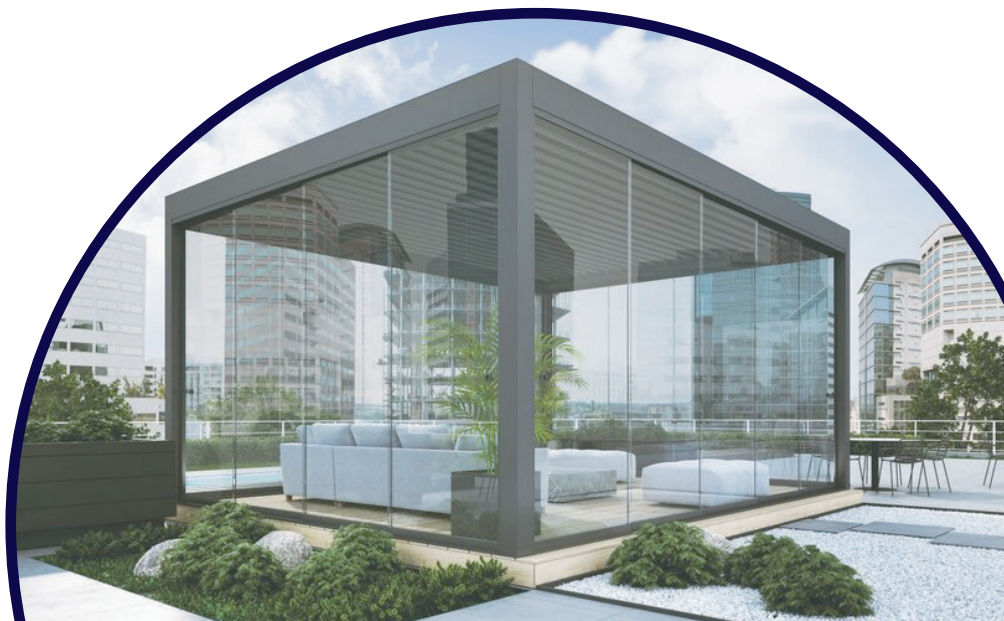

Solariums

A solarium, also frequently called a sunroom or garden room, is a room that permits abundant daylight and views of the landscape while sheltering from adverse weather.

Glazing Systems
Exterior Products

Solar Protection

The use of sun control and shading devices is an important aspect of many energy-efficient building design strategies. In particular, buildings that employ passive solar heating or daylighting often place high depend on well-designed sun control and shading devices.

Glazing Deluxe

Balustrades

Glass balustrades are frameless glass panels that are used to create a barrier to offer safety and protection from fall hazards in areas where there is a change in floor level or an open area with a risk of falling.
